About City of Trees

City of Trees is an innovative and exciting movement set to re-invigorate Greater Manchester's landscape by restoring underused, unloved woodland and planting a tree for every man, woman and child that lives in the City Region, within a generation.

Our knowledgeable and skilled team has a 25 year history of working on practical projects, all with the aim of greening Greater Manchester.

We offer the highest standard of service in a relaxed and fun atmosphere and will work with you to create a unique, memorable event.

“The woodland management event was great fun - we felt like lumberjacks for the day! We could really see the difference we had made.”

“The day was a great success, not only because we planted so many trees, but we had our partners, along with their colleagues and families, getting involved and being inspired to carry on supporting the project.”

Taking part in outdoor activities as a group is a great way to experience team-building, whilst making a real difference to the environment, wildlife and local communities.

What we offer:

- A customised package personalised to your needs
- A huge range of activities from foraged cocktail making to balsam bashing, tree planting, orchard creation, coppicing, woodland management and much more
- An opportunity for staff or clients to learn new skills, and complete fulfilling tasks
- A chance to make real environmental improvements whilst meeting your business and CSR goals

If you're looking for a great event that boosts staff morale, impresses your clients and meets your CSR objectives – get in touch today.

Our bespoke away days are £50 per person (minimum £500 spend), including lunch, all equipment, training, facilities plus free goody bag.
